

# Brookdale Farm Supplies

Valente's concrete posts are prestressed reinforced posts that are trapezoidal shape with four smooth sides and no edges. This prevents wear on hail netting or other coverings. The Valente trellis system can be done three different ways; standard trellis support, tall trellis support for future installation of netting or the tall trellis with hail netting included. Many different types and colors of hail netting available. 2.5 acres of apples at 12' row spacing fits in an overseas container. Container loads are delivered directly to your farm. Note: posts need to be vibrated in. Give us a call for more information and to get a quote with trellis modeling.
